RE: Mayor's Welcome Letter to Immigrants

As Mayor of the City of Lloydminster, it is my honour to welcome you to our community.

Canada's history is written with stories of newcomers and their descendants who become our business owners, doctors and community leaders. We are made more vibrant and compassionate by the presence of hard working, brilliant people who journey here seeking a better life for themselves and their families.

For many, the road to Canada has been long. To those fleeing persecution and war we offer you peace and security.

To those reconnecting with family, we wish you many years of health and happiness with your loved ones.

And to all who have chosen to make the prairies home we offer you cold winters, but warm hearts.

Thank you for becoming an important piece of our cultural mosaic in our diverse community. Each unique addition is a part of a beautiful picture that is Canada. We are blessed to welcome you as our friends and neighbours.

Regards,

Gerald S. Aalbers
Mayor
City of Lloydminster
